A billion dollar industry!

Saudi Arabia and the UAE lead in overnight guest targets, aiming for 39 million and 40 million visitors, respectively, by 2030. Qatar and Bahrain also have substantial growth targets, with 7.1 million and 14.1 million overnight guests, respectively. Oman projects 11.7 million visitors by 2040, emphasizing long-term sustainable growth. Focusing on enhancing its tourism infrastructure, Kuwait aims to become a competitive player in the regional market.

Hotel supply is set to expand significantly across the region, with Saudi Arabia targeting 450,000 keys and the UAE aiming for 304,000 keys by 2030. Qatar and Oman also plan significant increases, with 59,000 and 65,000 keys, respectively, while Bahrain targets 35.5 thousand keys.

We at Global Advanced Technology Team are looking for a long-term plan where a bright future is felt. The main part of our research to enter the tourism service sector includes hotel reservations and vehicle ticket purchases. According to the plan, from the beginning of 2025, our implementation plan will be implemented in the UaAE, Oman, Kuwait, and Qatar, which includes the launch of the system for purchasing plane tickets, hotels, etc., using the GLOT token and wallet. So we realize that we have put our main focus on long-term business partners. But in order to reach the above goal, it is necessary to have effective and long-term marketing and advertising, which has been started by our team.

Goals in 2025

1. Signing a Memorandum of Understanding for the purchase of plane tickets with \$GLOT with Fly Emirates, Fly Dubai, Qatar Airways, Salam Air and Oman Air.
2. Signing a memorandum of understanding for hotel reservations with \$GLOT with hotels in the UAE, Oman, Qatar, Kuwait and Saudi Arabia
3. Signing a memorandum of understanding for the use of recreational facilities with \$GLOT
4. Direct investment in health and wellness collections with \$GLOT
5. The possibility of obtaining an instant loan up to 100K \$ by freezing \$GLOT

In exchange for providing the above services to GLOT users by the exchange, a specific fee is allocated to the exchange for each purchase, and users who use the GLOT token in this way are awarded a certain amount of the token as a reward.

The exchange does not have any legal obligation regarding this matter and all related contracts are performed by Global Advanced Technology.

our decision is to add the possibility of buying plane tickets, hotel reservations and some other facilities on the website and application of an exchange.

In the form of a contract between the GLOT\$ and an exchange.

Contract with an exchange!

Tourism system

Reservation of hotels, hostels, accommodation centers and entertainment centers

Buying plane, train, ferry and bus tickets

Shopping in shopping malls
Paying rent
Car rental payment
Insurance payment

Free use of some flight facilities

We are launching a blockchain-based tourism system with legal permits in Arab countries. In this system, it will be possible to buy and reserve tickets for vehicles and accommodation centers with \$GLOT token and some other tokens.

By checking in our team, you will find that we are in contact with XT, BICONOMY, FAMEEX, SUPEREX, ASCENDEX exchanges, and in the next month, BITMART, BINGX exchanges will also inform us about their activities. Currently, we are following 2 activities. 1. Recruitment of our official representatives in West Asian countries 2. Attract 5 more tokens as purchase units in our tourism system If you are interested in participating in our tourism system, let me know so we can discuss the details. more info: As stated in our executive plans, our plan to launch a tourism system includes purchasing vehicle tickets, hotel reservations, and other recreational opportunities in Arab countries in the first 2 months of 2025. In this regard, in order to focus more on the goals of 2025 with the decision of the board of directors, the team is negotiating with some exchanges to conclude a cooperation memorandum. This cooperation includes the use of exchange infrastructure by users, including the purchase of transportation tickets, hotel reservations, etc., using \$GLOT. More details: In exchange for providing the above services to GLOT users by the exchange, a specific fee is allocated to the exchange for each purchase, and users who use the GLOT token in this way are awarded a certain amount of the token as a reward. The exchange does not have any legal obligation regarding this matter and all related contracts are performed by Global Advanced Technology. our decision is to add the possibility of buying plane tickets, hotel reservations and some other facilities on the website and application of an exchange. In the form of a contract between the GLOT\$ and an exchange. We will conclude the necessary contracts with airlines, hotels, etc. The exchange will only be active as an infrastructure provider. Users will use the services through the site and application of the exchange. General description. Adding the booking header to the exchange website and application. In the booking section, it is possible to buy vehicle tickets, book hotels and soon buy goods in Arab countries. Users will be able to use the services by registering in the exchange. With every purchase in this section, a certain number of tokens will be rewarded. The exchange receives a certain fee from the purchase transaction. A cooperation agreement will be signed between the exchange and the company and will be officially announced. The contract is renewed annually with the agreement of the parties It will be possible to buy with Glot stablecoin and GLOT token. Another plan in 2025 is the possibility of investing in real estate in the UAE and Oman.
