

Global advanced technology

Forward to the future

Introduction

We at Global Lottery Team are looking for a long-term plan where a bright future is felt. The main part of our research to enter the tourism service sector includes hotel reservations and vehicle ticket purchases. According to the plan, from the beginning of 2025, our implementation plan will be implemented in the UAE, Oman, Kuwait, Saudi Arabia and Qatar, which includes the launch of the system for purchasing plane tickets, hotels, etc., using the global lottery token and wallet. So we realize that we have put our main focus on long-term business partners. But in order to reach the above goal, it is necessary to have effective and long-term marketing and advertising, which has been started by our team. Considering the age of the project, which is less than 2 months, a lot of measures have been taken in the field of marketing and advertising. We do not have a limit on the amount of investment. Considering that the initial price of each of our tokens is set at 4 cents and the pricing is chosen by the Global Lottery Strategic Council, our investors can keep the token instead of getting the dollar equivalent of their investment. Our

other important programs include the launch of a dedicated wallet, the launch of a lottery with monthly prizes of 1000 dollars for 5 people and the price of each ticket is 100 tokens.

All our efforts are based on the absence of restrictions on the nationality of our society

our suggestion

Currently, we are cooperating with all the travel agencies, accommodation centers, entertainment centers and airlines in the mentioned countries and we offer free cooperation to all of them because this matter helps the tourism industry and the economy of each country a lot. it is good And it is necessary to know that along with the latest technology in the world, the digital currency industry is influential in important aspects.

Application conditions:

1. Send cooperation request to official email : admin@glbl.info

2. Providing information including:

Name of the institution, place of activity, topic of activity to the email

3. Check the correctness of the information and confirm it by the team and send you a confirmation email

4. Deposit 1000 dollars to reserve cooperation request

5. The start of cooperation advertising from 01/10/2025

6. Starting official work on 01/01/2025
